No. 170.

## U.F.A. PICNIC BIG SUCCESS

Locals of East Clover Bar, Clover Bar and Agricola Attended

HON. DUNCAN MARSHALL

Minister of Agriculture Present and Spoke—President of U. F. A. Gave Address

The fourth annual picnic of the three locals of Clover Bar, East Clover Bar and Agricola, of the United Farmers Association, of Alberta, was held yesterday at Hootsburg, the weather being at that time so warm and bright that it could be wished to last forever. The picnic was held in a field opposite Mr. Horton's store and was plentifully provided with shade trees under which long rows of tables had been placed, and there from four to six-hundred a plentiful supper was laid out for all who cared to partake of it.

At one o'clock the pioneers began to arrive and shortly afterwards the sports commenced with a baseball match between Agricola and Anderson which resulted in a win for the former.

The base ball over, everyone crowded out on to the roadway to see the finish of the two mile road race which was to end at the field. The competitors, undaunted by the excessive heat, were driven out in a rig to East Clover Bar where the start of the race was made. The race was won by Allan of Agricola.

Want People of Right Sort

At three-thirty the flow of oratory commenced with a few opening remarks by Mr. Dryan of Agricola, who said that what the farmers wanted was people of the right sort coming into the country and a good government. We have the country, he said, and the right people coming in, but there were just a few things the government must do before they can be absolutely right. He then introduced Mr. Bowers, president of the U.F.A., who he said, would enumerate a few of the things that the farmers required before they could say that they had everything they wanted.

Mr. Bowers said that he would try and explain what the association was trying to accomplish. This was a time when the association and the province were making history.

"It isn't the men who make the most noise to do the most work," he said, "and we have been doing a great deal of work lately. We have been dealing with the men at the head of public affairs of the Dominion and the province and our most important subject with them is the western trade relations."

High Freight Rates

"There are several things that I want particularly to speak about. One is the poor packing plant, another the internal elevators. Some time ago we arranged to take the matter of trade relations up particularly and to call a conference this summer and ask all the boards of trade to co-operate as well as the consumers and producers. British Columbia is the best market for Alberta but the high freight rates on the railways prevent our getting in to it. Business men approached on the subject say: 'Go to the Railway Commission', but the railway companies always have some plausible excuse. This high rate also raises the price of things coming into this country from British Columbia and therefore cuts both ways. There is no doubt that a conference of all the people interested would do a great deal of good, and some understanding on the matter might be arrived at."

Meat Monopoly

Speaking of the meat trade with British Columbia and Alberta, Mr. Bowers said that it was all controlled by one firm and as the B. C. market is the only one possible for Alberta cattle this firm had everything their own way.

The farmers are going to have the poor packing plant, he said. The government could not take any other stand, but he believed that if an individual canvass had been taken which would of course cost more but have been more satisfactory, a far greater number of signatures to the petition would have been obtained, as there

## POSTPONE BUILDING MODEL SEWAGE PLANT

Demonstration Plant at 'Scona Must Wait Till Legislature Meets

For unavoidable reasons it is not possible to proceed with the construction and installation of the sewage demonstration plant which is to be established in Strathcona, until after the session of the legislature. On account of that fact they advise all municipalities who intend making additions and extensions to their sewer plants to postpone the work until the legislature meets, when it is hoped that the money will be voted for the sewerage system advocated by the provincial sanitary inspector. The question of sewage purification is passing through a period of transition. All the old systems are conceded, by sanitary experts, to be away short of anything resembling a standard of purification.

## PUBLICITY DEPT TO BE PERMANENT

May Decide This Next Year—Alberta to Exhibit in American Cities

Hon. Duncan Marshall, Minister of Agriculture, stated this morning that the provincial government had received an offer of space, as a set-off, for exhibition purposes by the Canadian National Exhibition which is held annually in Toronto. The provincial government intend to make use of the offer but no arrangements for the exhibit have yet been made. The government intend to exhibit the products of the province in several other fairs, including some across the border.

The government intend to take advantage of every means to accumulate the largest number of a population by the time the census is taken next April. The proposal to continue the publicity department will be decided next year and in all probability it will be made a permanent institution.

## ENGLISH M.P.'S ARE GETTING NERVOUS

Are Not Inclined to Support the Changes in the Coronation Oath

COUNTRY MUCH AGITATED

Members Have Been Shaken By Petitions From Sectarian Deputations

London, July 21.—It is becoming increasingly evident that the government was wise in deciding not to postpone the final stages of the Accession Declaration bill to the autumn session. Many M. P.'s who were disposed to support the measure have already had their feelings so worked upon by sectarian deputations with petitions that they are in condition to be easily startled. Nervous ones of the Scottish Liberals are in a highly agitated condition. The Unionist members have also been visibly shaken in the support which most of them were inclined to give.

Over a Hundred Switch

One hundred and fifteen non-conformist members yesterday decided not to support the second reading unless the terms of the declaration are altered. They object to the words making it obligatory for the King to be a member of the State church.

It is still thought, however, that if the cabinet sits tight they will get the bill through. There is more danger in the constituencies than in the Commons.

Lords May Vote It Out

It is noted that the upper chamber will probably not make the bill till November. It is suggested that the Lords will watch the progress of the agitation in the country and if it is possible will endeavor to gain prestige by the rejection of the bill.

Marriage Licenses, Jackson Bros.

You won't hesitate long about where to buy your shoes if you come here to look. Kelly & Moore.

## MAY SHIP CATTLE NOT INSPECTED

So Long As They Are for Points Within the Province of Alberta

NEW RULE IN FORCE SOON

Federal Veterinary Director General Announces a Welcome Change

Dr. J. G. Rutherford, federal veterinary director general, has advised Hon. Duncan Marshall, Minister of Agriculture, that new rules governing the transportation of cattle in this province will shortly go into effect. Up to the present cattle which are intended for shipment to other points have had to undergo an inspection by a veterinary inspector before the railway companies can receive them for transportation. The new rule allows cattle to be shipped from and to points within the province without the necessity of such an inspection.

At the present time such inconvenience is felt by those who exhibit cattle at fairs, for sometimes it is difficult to secure immediate attention from a veterinary inspector. At any rate, cattle which are intended for exhibition can be obviously considered free from disease or other contamination.

## LEDUC LEADS IN STRAWBERRIES

The Capital received a box of exceptionally large and finely flavored strawberries yesterday afternoon. They were brought in by Mr. James Chepin, whose strawberry farm is near Leduc. Mr. Chepin is an experienced berry grower, having started the cultivation of strawberries on a large scale away back in 1888, on his farm near Dundas, Ont. He has been raising the berries in Alberta for the past six years, and has yet to report a failure.

One of the berries brought in by Mr. Chepin was an inch and a half in diameter and over an inch in length.

A simple box of the berries was left at the Board of Trade offices. This is the third sample received in the last week or so, the other two coming from Wabamun and Clover Bar.

## TAKE MORE CARE AT C.N. CROSSING

City Commissioners Get Letter From the Railway Board Advising More Care

Acting on a letter of complaint from the railway commission at Ottawa to the effect that the Edmonton street cars crossed the C. N. B. tracks without due regard for safety, the city commissioners have issued instructions that hereafter will not be disregarded. In reply to the letter the city commissioners stated that they were in correspondence with a view of establishing interlocking signal appliances, preparatory to taking that matter up with the railway commissioners, to have the cost of maintenance properly apportioned between the C. N. B., G. T. P. and the city.

## TRY TO ABOLISH NATIONAL DEBT

New Zealand Will Provide Sinking Fund to Clear Debt in 75 Years

Wellington, New Zealand July 21.—Premier Wards budget speech in the Legislature yesterday foreshadowed providing for national annuities by the state in certain cases contributing proportionally to the number of children in the family. The scheme for the extinction of the national debt by a creation of sinking fund provides for the payment of the whole of the existing debt in 75 years, all future loans being treated on the same basis.

Diamonds, Jackson Bros.

## LET'S JOIN FORCES

The Dominion Census will be taken next June. Why should not Edmonton and Strathcona be one city of forty or fifty thousand, instead of remaining two small cities? Many prominent citizens of the two towns think amalgamation would be the best possible move. What do you think?

Asked in regard to the union of the cities of Edmonton and Strathcona, Mayor Lee endorsed the idea and also stated that he considered it one easy accomplishment. "It could be only a business transaction," he said. "With regard to public utility they could be easily united. We could use both the power plants for a while until we arranged for amalgamation. We have a street railway branch in Strathcona, and when union was effected it would be swept automatically out of existence, and the city of Strathcona would have just as much financial interest in it as the people of this city."

The union of the two cities would be of great importance to Edmonton, in that it would increase the population, and population is what we want. We expect to see Edmonton a large city some day, and the union of it and Strathcona would be a step in that direction. Besides, when a city has a large population it gets better care of interest from its debtors. The scheme is perfectly feasible, and in fact I can't see how union is going to be prevented, especially when Strathcona is built up more in the vicinity of the river bank and when the high level bridge is built.

## DIVISIONAL FREIGHT AGENT

Grand Trunk Pacific Appoints Man for Edmonton

The installation of a divisional freight agent at Edmonton will be one of the changes that will follow the visit to this city of Assistant General Freight Agent J. E. Dalrymple, of the Grand Trunk Pacific. Mr. J. F. Porter, who arrived in the city yesterday with Mr. Dalrymple, will occupy the position and locate his office in the renovated Carnegie block. His division will extend from Watrous, Sask., to the steel end at Wolf creek. Mr. E. Porter until recently was stationed at Toronto where he was assistant foreign freight agent.

## CALGARY LEADS IN RIFLE MATCH

Edmonton Represented at Alberta Rifle Association Meet

RESULTS OF YESTERDAY

10th Fusiliers and 19th A. M. R. Not Doing Very Well Yet

Calgary July 21.—Lieut. R. Young of the Elbow Rifle Association is the proud possessor of the challenge trophy, presented by N. D. Jackson, gained by winning the Alberta match at the Alberta Rifle Association meet which started yesterday. His score was sixty-six, and Sergt. Brankley of the R.N.W.M.P. tied with him in the score, but gained the majority of his points in a shorter range than the Elbow rifleman, hence the prize goes to the latter.

Brankley At Short Ranges  
Sergt. Brankley made a possible in the shorter range yesterday morning but was unfortunate to lose his score in the next distance, being lower. Capt. C. G. Page, son of Regt. Sergt. Page, won the silver medal emblematic of superiority in the cadets match. He made 27 points out of a possible 35. Sergt. E. Etter was second, winning a bronze medal, and Lieut. Claus, E. Page third.

Sergt. Major Page is range master, and not a hitch has occurred so far. The City of Calgary Match was commenced yesterday afternoon and also the Walker Trophy Competition.

The scores are as follows: Lieut. R. Young, Elbow, 66; Sergt. Brankley, R.N.W.M.P., 66; Sergt. Chabazley, 65.

(Continued on page eight)

## TWO MILLION IS LOSS FROM FIRES

British Columbia Forests Ravaged By Week's Bush Fires

MANY INDUSTRIES LOSE

Premier McBride Has Sent Out Orders That All Must Give Help Required

Victoria, July 21.—The general fire reports from all parts of the province are confirmed by despatches to Premier McBride. Lands Minister Ellison and other officials at the capital, place the aggregate losses of the present week by bush burnings at no less than a million and half dollars actual loss, while fully half a million more will be lost in the enforced suspension of industrial enterprises such as mining, lumbering, etc.

The Sloan continues the focal point of danger. The zone and chief fire warder Gladwin has been dispatched thither to take charge of an army of defence.

All Must Help

Premier McBride has sent word to Government Agent Chipman at Kaslo to extend aid to all requiring it and has also empowered the fire wardens to engage every man available for the work of fighting the flames.

A complaint has been received by the premier from the management of the Rambler Cariboo mines asking that an investigation be held into the fire which have done \$25,000 at that point, claiming that two weeks ago the fires might readily have been extinguished.

## KING WILL LIVE TILL AUGUST 2ND

No Word From Ottawa, So Justice Scott Postpones Date of Execution

Whether William Oscar King, convicted of the murder of Jos. Hindahl, will hang or not is at present uncertain. The execution was to have taken place today in the barracks at Fort Saskatchewan, but owing to the fact that no warrant has been received from Ottawa and the only news that has been received from that quarter is a telegram from the Under Secretary of State, which says that he sees no reason why the execution should not be proceeded with, but no mention was made of an order-in-council from the governor General, which must be obtained before capital punishment can be administered.

Yesterday Judge Scott motioned to the Ford and announced to King that he would be allowed a new lease of life until August 2nd.

The permanent reprieve, which King's counsel, H. H. Robertson, urged to Ottawa for, has not arrived and it is not known whether it will arrive or not, as there has been no word of any kind from Ottawa as yet.

## INTENSE HEAT DROVE HIM MAD

Mounted Police Have Caught Unfortunate Man Who Went Insane

Corporal Davis and Constable Cotterill, of the R.N.W.M.P., yesterday apprehended Heft Topen, a German, who went insane in a G. T. P. construction camp on Tuesday last near Wapiti. It is not known what was the cause of his affliction, but it is supposed that the intense heat of the past week was responsible. It was during the middle of the day, when Toler began to tear quietly and later on he took out his pocketbook and began throwing his money away, and when his comrades collected it for him he swept it aside, contemptuously. The mounted police were immediately notified and the above officers were dispatched. In the meantime, the man had escaped from the camp. After some search in the surrounding country, however, he was located, and will arrive in the city tonight, in custody.

## SNEEZED HIMSELF TO DEATH

Pepper Caused Sneezing and Man Ruptured Blood Vessel

New York, July 21.—Jos. Bemerscheid sneezed himself to death in a restaurant today. After shaking pepper into his soup he was seized by a fit of sneezing and ruptured a blood vessel.

## 3 YOUNG WOMEN LOST AT BANFF

Spent Night on Mountain Side, But Were Found the Next Morning

Bawfil, July 21.—The people of this town were told today in a state of great excitement yesterday morning when it was learned that three young ladies who had started out on Tuesday morning to climb one of the Peaks of Rundle mountain had not returned. The names of the young ladies were Miss Unwin, of Banff, and her two guests, Miss Herman of London, Eng., and Miss Soenen of Nova Scotia. The party had taken with them only a light lunch intending to reach home early in the evening.

Search parties were at once organized and between forty and fifty men patrolled the mountain all day. It was after six o'clock when they were discovered by Mr. Sibbald in a helpless plight, and rescued in an exhausted condition. The place where they were found was high up on the side of the mountain.

## TRYING TO MAKE FARMERS RETURN

American Papers Publishing False Reports—Say Americans Are Going Back

Publicity Commissioner Hutchkins displayed a couple of American papers to a Capital reporter this morning which contained articles stating that many American farmers who had emigrated to Canada had become dissatisfied with conditions there and were returning to their native soil. "They must go back by the airship route," said Commissioner Hutchkins, "for they don't cross the border by any other means."

It can be seen that the Americans are attempting to check, by fair means or by foul, the steady flow of American farmers into Western Canada. Their efforts so far, however, have been decidedly unsuccessful.

## TINY HOLE IN FENCE AFFECTS NATIONS

American Cut Hole in Boundary Fence Between Mexico and United States

WAS PUT IN PRISON FOR IT

Now United States Wants to Know Why—Little Cause, Big Fuss

Washington, D. C., July 21.—A hole, and a little one at that, which was cut in a fence, threatens to become an international incident between the United States and Mexico. Protest has been reached the State Department from California against the arresting in Mexico of D. F. McKay, on a report that he cut the hole. It is alleged he placed a gate on the boundary fence near Tijuana, a little town just across the international boundary in Mexico. The report is that McKay not only was arrested, but had been refused bail pending his trial. The secretary's department today called to the American embassy at Mexico City for full information of the incident.

PASSENGERS INCREASE

London, July 20.—The number of British passengers to Canada during the last six months was 86,607 compared with 43,039 for the same period last year.

## RUSSIANS IN A MILD RAGE

"Inejeksky," Said One to the Mayor, Causing Stampede Among Commissioners

IT WAS REALLY A STRIKE

Thirty Russians Quit Work at Fair Grounds and Appeal to Mayor

Sounds of footsteps, and a rush of coherent speech resounded through the city hall this morning about ten o'clock, as thirty thirty Russians burst into the offices of the city commissioners.

"Thismetzhsky laste mayorsky," called a babble of voices.

"Inejeksky kner lenksky," yelled out several who brought up the rear. Mayor Lee, who was calmly sitting at his desk looking over the morning mail, jumped higher than if he had just sat down on a pin. With his face as pale as that of the ghost of Hamlet's father, he peered through the crack in the door.

"Knoazhkin rankovs," yelled the excited foreigners, and the mayor's heart failed. He immediately thought of what usually happened in far off Russia when a tyrannical government official aroused the enmity of the people.

"Surely there must be some mistake!" soliloquized the chief magistrate between gasps. "I never harmed a hair of any living creature in my life."

Then with a brave rally, muttering forgiveness to all his enemies, and locking his pocket book in his desk, he placed his hat firmly on his head, squared his shoulders, and walked with dignity into the outer office. "Kleketchky," cheered the mob. The first sight which met his gaze was Commissioner Bouillon in office opposite peering over his desk. If he had glanced around the main hall, he would have seen Commissioner Butchart trying to make a hasty exit through the window of his office.

"What do you want?" stammered the mayor.

"Exhiltimons," greeted his ears.

"Spell it," came from the mayor. But this time Commissioners Bouillon and Butchart encouraged by the brave front of the mayor came trembling out of their respective offices, leaving the bomb-brothers.

In the meantime the invading force called a council of war and finally one man advanced to the mayor and made him understand that the mayor's other means his inventive mind could design, that they were employees at the exhibition grounds and that they had a grievance. What it was could not be understood, but a Capital reporter, who can speak 365 languages, with the utmost ease, found out later that the Russians were complaining about the water they had to drink at the exhibition grounds.

Then men are employed on the construction of water mains at the grounds and they are quite a distance from any point where water may be had and they have to have it drawn. The mayor in company with Commissioner Bouillon and City Engineer Latour, will visit the grounds this afternoon and make an investigation.

## CHILDREN KILLED BY FIRE

Burning Hay Barn Causes the Death of Four

Bandford, Pa., July 21.—Four children perished in a burning hay barn owned by John Adams at Rasselas, south of here. Three of the four victims were sons of Farmer Adams, 12, 10 and 5 years old.

## WORLD'S WHEAT CROP

London, July 21.—Col. Mark May, a member of a well-known mill firm, regards the wheat position here as reassuring. Reports from Argentina, Austria, Bulgaria, France, Germany, Hungary, India, Roumania and Russia all indicate good crops, India having the best crop on record.

## News and Views of Sport at Home and Abroad

Rowing  
Lacrosse  
Athletics  
The Ring  
WrestlingTHE MIGHTY HEINRICH  
BITES THE DUST IN DEFEATJack Hickey Demonstrates There are Other Good South  
Paws—Locals Won 4 to 1

For one year and seven months have we waited patiently for it, and last night our hopes were realized and we beat Heinrich.

Long had he had the Indian sign on our early Eskimo warriors, and often had he sent them away from the ball park with hearts laden with sorrow and shame.

But, as the proverb says, a winding line gathers to most, so Heinrich came back again last night and tried again to perform his stunt.

After a few innings, amazement is writ all over his countenance. For the hitherto submissive Eskimo is standing right up to his pitching, and some even have the hardihood to grab his hits. Something must be wrong, says Heimie to himself, and flashes a wireless C. Q. D. to Bill Morrow. But no answer cometh.

After the run which looked so big to the Angels had been equalled by Heinrich's frenzied pep to the Amies, the Brandon machinery seemed to clog.

The sixth innings was, taken all in all, one of the pleasantest scenes we have ever witnessed. There were hits, there were passes, there were more passes, and then THE hit of Hickey's which sent two lovely runs across the highly-excited home.

Heimie's heart cracked and the ladies on the stand cruelly laughed.

A prize of one ticket up the lift is offered for the most touching sonnet on Heimie's demise. Professional poets are barred, Marquis of Queensbury rules to govern the contest.

But we must curtail this sobby stuff about Heimie, and get down to brass tacks. The man who was the keystone of the victory was Jack Hickey and he twirled a splendid game of ball. He gave nary a chance, fanned five men, fielded his position like a salaried infielder, and in addition knocked out two hits off the former champion. Hick has earned a place alongside Delmar in the local baseball hall of fame.

The Eskimos played snappy ball at all times and only had one error, a poor throw to second, which did not prove costly. The visitors also played nice ball and Heinrich had only himself to blame for the defeat. He gave the locals two of their runs and Hickey knocked in the other two.

The fielding sensation of the game was a one-handed stab by Ducky Holmes, who was released by Winnipeg, probably because he was showing up the rest of the team. In the seventh Mills knocked a line drive down, the third base whitewashed streak which looked like a two-bagger. Heimie took a couple of stars and thrust his hand across his body and the ball stuck. It was a peculiar Heimie Holmes, unpopular as he is, got an ovation from the fans who are always ready to recognize a good play.

**Lonely One**  
Brandon started and ended their scoring in the second when they tallied one. Thompson hit out to centre and reached first safely, stealing second on the first ball thrown. Cooper tried to help him along, but died at first, Morse to Baxter. Triplett

connected to a single to centre, sending Thompson to third, and Boroleski finished the good work with a smash-dive. Brandon's pride was next, but was an easy out, Deacon to Baxter. McDonough couldn't see Heimie's curves and died.

**We Get One**  
Everything was easy until the ninth, when Mills got to first on a nice one to left. Morse tried to bunt, but his efforts resulted in a tiny pop fly, and he retired in disgust. Morse hit a high one over to the left fence, and Holmes got to it. He threw the ball to Heimie, and he tried to catch Mills at first with a swift one. But the shoot was wild, and by the time Mills picked himself out of the dust the ball was over beyond the bleachers. Mills did a quick-time Marathon, and beat the throw-in to the mound by two yards, much to the delight of the fans.

**Three in the Sixth**  
But it was in the sixth that Deacon's pet started the fun, with Heinrich helping them all he could. Heimie didn't like the way Mills stood up to him, and walked him out. But it was this time, and sent a hard one out to centre. The Dutchman got excited when he had Morse in front of him, and sent one between his legs, Mills and Baxter moving up one. Morse hit an easy one and was out at first, Triplett to Thompson. Then Chesty came up, wriggled his toes, and hung over the plate as though he was dreaming of a homer. This scared Holmes and he sent Heimie had a special service after which Heinrich gave Cox a free trip to first. With bases full, Brennan died and the fans groaned. But Heimie's heart melted and he passed Spencer, forcing in Mills. Then came Hickey, all smiles, and lifted a pretty little Texas leaguer over second, bringing in Morse and Chesty while the fans took a balloon ascension. Lussi died to O'Brien ending Billy Morrow's agony.

In the remaining stanzas, the score board official hoisted juicy ciphers for both teams. The Angels made a last stab in the ninth, but a pretty double, Brennan to Deacon to Morse sent them up the hill, disgruntled.

Pretty figures tell the tale:

ST. GEORGE'S WON  
FROM THE IRISH

Score was 3-0—The Hibs, had Only Nine Men in Uniform but Fought Hard

In view of the fact that they were playing with only nine men the Hibernians made a splendid stand against the St. George's team last night, being defeated by the latter club in a scheduled game by a score of 3 to 0. It was thought at first that the Irish men would defeat the match owing to their being unable to secure a full complement of players, but they displayed a very sportsmanlike spirit by going on the field with certain defeat ahead of them. The game was necessarily a poor one, on account of the serious handicap which the Hibernians were under, but there were a number of pretty pieces of play throughout. The losing aggregation played a defense game throughout, the ball being in their territory nearly all the time. There was an absence of speedy work while the following-up was very lax. Both teams played with a degree of carelessness, however. Individual play was in order, there being nothing on exhibition in the way of combined rushes. Occasionally, however, there would be an attempt a combination, but in nearly every case the sphere would be delivered into the possession of the opposing team.

Watson, who guarded the nets for the Irishmen, played a cool and watchful game and prevented in many cases what looked like sure tallies. All three goals were scored on well placed kicks, Tomkins being responsible for the first two, Lovecock notched the other one.

The game was very late in starting, the ball being kicked off at 8.15. During the last period of play darkness began to set in and play was difficult. There was a small crowd in attendance, and with it an absence of the excitement which usually characterizes the football games. N. Colville of Norwood officiated impartially as referee.

The teams were as follows:  
St. George's—Goal, Parker; H. Parsell, Lovecock, Chapman, Ruff, Grimbale, f., Francis, Parker, Cause, Lloyd, Tomkins.  
Hibernians—Goal, Watson, f.b., Raynor, McNeill, h., Speakman, Martin, f., Hodgson, Armour, Houston.  
Referee—N. Colville, Norwood.

## MANY BASEBALL DEALS

Calgary, July 21.—When the five Western Canada League teams were in Calgary on Saturday, this city was turned into a veritable baseball exchange.

Deals were made and put through, and players that came here pulling a pay envelope from certain teams left here the property of another, and the meeting there marked the event of their promotion or downfall. The station platform was a regular exchange market. Moose Jaw traded Triplett, the infielder, to Brandon; and Jones, the third bagger to Medicine Hat. Morrow gave Moose Jaw Smith. Quigley of Edmonton was given to Moose Jaw. Things were moving fast, and we would not be surprised if Regina and Brandon pulled off a few more trades on the train during their trip south.

SASKATOON GETS  
THE FRANCHISE

Teams in the Post-Season Series Cannot Introduce any New Players

Calgary, July 21.—A special meeting of the Western Canada Baseball League was held here yesterday. President C. J. Eckstrom was in the chair, and all the various clubs were represented. The action of the president in taking over the Medicine Hat franchise by the league was confirmed. The president reported having had negotiations with Saskatoon in regard to the Medicine Hat franchise, and the following offer from J. W. Byers in regard to this franchise was presented. "We will take over Medicine Hat team and franchise outright provided franchise remains perpetual property of Saskatoon and send representatives to Calgary meeting Wednesday if this proposition is acceptable. We will assume all liabilities from date of taking over the team but no debts of Hat."

After considerable discussion it was decided that the Medicine Hat franchise be turned over to Saskatoon on the same terms as other league franchises, the Saskatoon club to assume charge of the team at once and to assume salaries from July 15th. All players to be turned over to Saskatoon under present contract on the understanding that the league is to receive fifty per cent of purchasing price of any of the present players sold during the season of 1910 and 1911, and that the president be empowered, if necessary, to modify these terms in any manner that may be for the best interests of the league. The secretary was instructed to send a wire to J. W. Byers, Saskatoon, giving them the franchise on the terms mentioned above.

The question of players for the post season series was then taken up, and the following resolution passed: The teams participating in the post season series shall not be allowed to play any players who were not under contract and who were not active members of contesting teams prior to August 15th, 1910. The meaning of this resolution is to prohibit any introduction of players for such series.

## NEW LEAGUE SCHEDULE

The following schedule has been drafted so as to include Saskatoon instead of Medicine Hat

At Edmonton—Winnipeg, July 21, 22, 23. Lethbridge, August 12, 13, 14, 22, 23, 24. Saskatoon, August 19, 20, 21.

At Lethbridge—Saskatoon, July 21, 22, 23. August 25, 26, 27, 28, 29, 30, 31. Moose Jaw, July 21, 22, 23.

At Calgary—Brandon, July 21, 22, 23. Edmonton, August 25, 26, 27, 28, 29, 30, 31. Lethbridge, 15, 16, 17, 18, 19, 20, 21. Saskatoon, August 22, 23, 24.

At Regina—Saskatoon, July 22, 23, 24. August 4, 5, 6. Moose Jaw, August 13, 14, 15, 16, 17, 18, 19, 20, 21. Winnipeg, August 15, 16, 17, 18, 19, 20, 21. Lethbridge, August 1, 2, 3. Calgary, July 28, 29, 30, 31.

At Winnipeg—Lethbridge, July 29, 30, 31. Edmonton, August 4, 5, 6, 7. Calgary, August 1, 2, 3. Regina, 22, 23, 24. Brandon, 8, 9, 10, 25, 26, 27, 28, 29, 30, 31. Moose Jaw, 18, 19, 20, 21.

At Saskatoon—Winnipeg, August 9, 10, 11, 12, 13, 14. Lethbridge, August 8, 9, 10. Calgary, August 11, 12, 13, 14. Edmonton, August 15, 16, 17.

At Moose Jaw—Edmonton, July 28, 29, 30, 31. Lethbridge, August 4, 5, 6, 7. Calgary, July 25, 26, 27, August 8, 9, 10. Saskatoon, August 1, 2, 3. Regina, August 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21.

At Brandon—Saskatoon, July 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31. Lethbridge, July 25, 26, 27, 28. Calgary, August 4, 5, 6, 7. Regina, August 18, 19, 20, 21. Moose Jaw, August 22, 23, 24.

## ZINGARI BAT WELL

London, July 20.—At the close of the first day's play at Portsmouth the Canadian Zingari cricketers, in first

innings had 302 runs; Southern 79, Lonsborough 76, Wm. Marshall 45, Gibson 32, Saunders 22, Deemer 22. The United Service team had sixty-eight runs for one wicket down in the first innings.

President Eckstrom, when interviewed in Calgary, stated the batting and fielding averages will go on from the start of the first schedule.

McCart, lately seen with the Hat, is now with Winnipeg. Zim is also an absentee from the Mad. Hatters' ranks. Hamilton's team is certainly melting.

Something Turns Up—  
What? those trousers!

If you are pressed for money press up your old coat and vest and buy a new pair of trousers. They will tone up your old coat and vest and get you through awhile.

**\$3 to \$6.50 will buy you a good new pair.**

Then when you are ready for that new suit come to us and you'll be sure to get a good suit, because we carry no poor clothes in our house.

**But \$16.50 will buy a good suit from**

**The Boston**

Hart Bros. 291 Jasper Ave. E.

## MIDSUMMER SALE

An opportunity to buy the best tailored clothes in Canada at a discount of 20 p.c. off regular prices. Fitted and finished on the premises

**\$30 Suits selling at \$26**  
**\$25 " " " \$20**

## STOP! LOOK! LISTEN!

**A Complete Pool Table for \$225.00**

Delivered to any railroad station within 150 miles of Edmonton. Freight prepaid. For \$125.00, on easy time payments.

Revered cushion, rail tops; Monarch Quick cushions; best Vermont slate; Simons cloth; solid case inside number pool balls; tables finished either Golden Oak or Mahogany; immediate delivery to any railroad station within 150 miles of Edmonton for \$225.00.

**THE BRUNSWICK-BALKE COLLENDER CO.**

224-228 McDougall Ave.  
Edmonton Alta.

## POWERS OF DUMA WILL BE WIDENED

Russian Parliament Will Soon Be As Influential As Prussian Diet

St. Petersburg, July 20.—The powers of the Duma are to be still further increased and it is not improbable that within a few years Russia will have advanced in the path of constitutional government until she is abreast with Prussia.

This is the opinion held by many who are high in the favor of the Czar. It is stated that his majesty has followed the work of the Duma with keen interest. He is convinced that the fact that Russia is less afflicted with active revolutionary ideas than she has been for many years is due in great part to the work of the Duma, and that a gradual extension of the parliamentary idea means safety, peace and progress. Hence it is his intention to extend the scope of parliamentary authority as rapidly as circumstances will permit. It is understood that he has expressed himself not only to some of his leading ministers but also to non-official members of the Duma.

The upholders of orthodoxy have been awaiting with great impatience the result of the extraordinary session which has just been concluded at

Moscow, in the government of Minsk, with closed doors.

Five landowners and farmers, Polish Roman Catholics, and two Orthodox peasants, who accompanied them, were charged with desecrating a Russian church, by pulling up the flooring and shooting two foxes, which had made their lair on the premises. In doing this they invaded the sanctuary, and covered with shot marks an ikon of Christ, which was also bespattered with blood.

The church of St. Nicholas, the Miracle Worker where the desecration occurred, is situated in a wood some three miles from the village of Rojishka. It is old and tumbledown, the roof is described as rotten, and only one service is held there annually, it being shut the rest of the year.

The charge against the prisoners dated from September, 1905. They had already been tried and acquitted on technical grounds. The indictment described how the prisoners went box shooting with a number of dogs, and forced an entrance into the church, their foot steps and tracks were discernible in the snow, which had fallen through the roof on the floor of the building. There was blood stains in many cases. What had occurred was quite evident. One of the foxes, on being driven from the hole under the church, had dashed towards the ikon screen, and the hunters had fired at it as it made a leap on to the ikon of the Saviour. Twenty-two shot marks were found on the ikon itself.

The second fox unearthed in the church was killed by the dogs.

The court condemned the five landowners and farmers to terms of hard labor varying between eight and four years. The two peasants received less punishment.

## ESTABLISHING A MEAT EXPORT TRADE

A Resolution Recently Proposed by Council of Edmonton Board of Trade

The Board of Trade of Western Canada have in the past been inclined to take a somewhat narrow and restricted view of their functions, their vision has been confined too much by the boundaries of their respective cities, and consequently many matters of immense and pressing importance to the country as a whole, and in which they could render valuable aid, have been largely neglected.

As showing, however, that there is a healthy tendency to take a broader and more comprehensive view of subjects of great national significance, a resolution is appended which has been unanimously passed by the Council of the Edmonton board of trade,

for presentation to Sir Wilfrid Laurier when in this city, and which no doubt will spur other boards throughout the west to take somewhat similar action with regard to this momentous and far-reaching question.

The resolution, which deals with the matter in a very clear, concise, and unmistakable manner, reads as follows:

Whereas, The real and enduring progress and prosperity of every city, town and village throughout the whole west is inextricably bound up with the success of agriculture.

And Whereas, The continuous cropping of our lands, and the putting of nothing back, must eventually end in the impoverishing of our soil, and thus rob the country of one of its principal and most valuable assets.

And Whereas, The production and fattening of meat animals holds the same important relationship to true and permanent agriculture as agriculture does to the future advancement and well-being of the whole Dominion.

And Whereas, The lack of steady and profitable export trade is largely responsible for the deplorable condition of the live stock industry in the west, and is the principle reason the farmers are devoting practically the whole of their time and energy to the production of grain for export.

And Whereas, Progress in the live stock business is under present conditions out of the question, and no material advancement will be made until such time as it is clear to the farmers that it will be well worth their while to grow and fatten more stock.

And Whereas, This most desirable state of affairs can only be brought about by providing the farmer with a stable and remunerative outlet for his meat animals.

And Whereas, To obtain the necessary market stability, it is imperative that a modern, scientific, and up-to-date system of meat exporting be established, on a sound, business-like, and permanent foundation.

And Whereas, To be productive of the greatest possible good to the country as a whole, it is essential the Federal Government should take this matter up and render the necessary assistance towards establishing the industry with all possible speed.

And Whereas, The inauguration of this weighty and far-reaching industry is the only practical method of giving the required confidence to produce and finish stock, and its inception would encourage the production of all kinds of meat animals to an extent few realize this western country is capable of.

Be it resolved, The Council of the Edmonton Board of Trade urgently entreat the Federal Government to take this matter up and render the necessary assistance towards establishing the industry with all possible speed.

## WHY IS A FIREFLY?

Kansas Professor is Going to Try to Find Out

Manhattan, Kan.—The air lamp of the firefly what lights it, and why it is carried aloft, is a question for the solution of which J. C. Hamilton, professor of physics in the State Agricultural College here, is experimenting.

The firefly, Prof. Hamilton asserts, surpasses anything Edison has done in the amount of light obtained from the energy expended.

Before the summer is over Prof. Hamilton expects to have determined just what this method is.

## CLARKE HOPEFUL FOR HIS RAILWAY

His Innings Will Come Soon, He Says—Expects Development Soon

Winnipeg, July 21.—W. R. Clarke, the somewhat elusive president of the A. & G. W., is here and was interviewed at the Royal Alexandra. When asked, "Why did your company fail to pay the interest on the bonds which became due this week," Mr. Clarke responded, "I have nothing to say."

He was asked: "Is the project of building the railroad now altogether abandoned?"

"Do I look like a man who has abandoned hope? It would do my interests great harm to talk at this stage. Let us wait until the commission has completed its investigation. The other side has been doing a lot of talking, and my friends are anxious to reply, but I pleaded for silence. I should like to see a chair of silence established in our universities."

Mr. Clarke further said he would be in Winnipeg for some weeks and he hoped there would be something important and satisfactory in the course of a fortnight.

## STRANGE QUEST FOR OLD INDIAN

College Professor Sets Out in Search of a "Primitive Red Skin"

Amherst, Mass., July 21.—The most interesting quest ever made by a college professor, a quest more appealing in its associations than any hunt for strange animals or relics of long past civilization, has just been begun by Dr. Charles A. Eastman, of Amherst, who has set out for the far northwest to find an Indian who still retains the simplicity and primitive viewpoint of the tribesmen who roamed the west and lived before the white man came to this continent. And to add further interest to this search Dr. Eastman is himself nearly a full blooded Sioux.

As an authority on Indian religion, art, social customs and folk lore, Dr. Eastman has already distinguished himself as a lecturer, and author, but his dream for many years has been to experiment with a primitive Indian, and thereby prove that the individual may be inspired by a simple system of suggestions to work the entire cycle of racial art development.

Although Dr. Eastman has been identified with educational institutions in the east for many years, he was born in Minnesota, and from the time he was five until he was 15 years old he lived in Manitoba, leaving there to begin his education at Knox College, Ill. Afterward he studied at Dartmouth and took his special course in Boston. Meanwhile however, he was devoting much time to the art of the Indian, and the possibilities of developing it.

Artistic Influence

"There are certain points in my plans to experiment with primitive Indian," says Dr. Eastman, "that I can not discuss at present. Naturally I have certain ideas as to what may be proved; and it will do no good indeed; it might be detrimental to tell them now. But my efforts are to be directed mainly toward noting the reactions and inspirations that may be caused by bringing before such an Indian the artistic influences with which civilized man is familiar from childhood."

"I think it is a generally recognized fact that among all races the development of art up to a certain point is strikingly similar. For example, it does not require an expert to note the similarity between the bas reliefs of the Aztecs or the Maya Indians of Central America and the bas reliefs of the Assyrians. In all these cases the artistic development of the race was arrested at the beginning. And for that very reason, I think we should not say off hand, that the Assyrian, the Aztec or the Maya art was not capable of progressing to a much higher point, perhaps to the degree that the Western European art has developed."

## ZINGARIS WIN

Beat the United Service Team at Portsmouth

Portsmouth, July 21.—The Canadian Zingaris beat the United Service team by 47 runs. The Canadians in their second innings did poorly, getting only 117 runs, Wright 44, and Saunders 19 and not out. The United Service team set out with 189 runs to win in one hour and three quarters and made 142 runs. Beemer had six wickets for forty runs.

## C.N.R. EMPLOYEES HAVE GOOD TIME

Picnic at St. Albert Lots of Fun—Beauty and Baby Contests Were Held

The annual picnic of the C.N.R. employees was held yesterday, the festivities being held in St. Albert. The occasion was marked by magnificent weather and that probably was responsible for the large turnout. It took two trains to convey the picnickers to the grounds, there being about 700 in attendance.

A most enjoyable programme of sports was carried out and the various events were attended by much excitement. The St. Albert band supplied music throughout the day. It had been arranged to have football and baseball matches, but owing to the unfortunate lack of playing grounds it had to be called off.

There were several novel contests, which created much interest and amusement. The fat man's and biscuit races were the cause of all sorts of fun. The heavy contest was won by Miss A. A. O'Leary, who captivated the judges by her winsome smiles.

The judging of the baby contest was a most difficult thing, but after much deliberation the judges finally succeeded in arriving at a decision. Miss Josephine Napore, four years of age, captured first place and was highly pleased. Master James and Emily Elberts took second and third, respectively.

The day was most enjoyable and will long be remembered by those fortunate enough to be present.

## SPINE OF FISH KILLED YOUTH

Palm Beach, Fla., July 21.—Death in an unhealed form waited for Lawrence S. Baker, an eleven year old Jacksonville lad, when he dived from a boat in Lake Worth yesterday. A stingray was turning just under the boat. One of the barbed spines which this fish carries on his tail, pierced the boy's neck, cutting the jugular vein. He rose to the surface crying for help and bled to death in four minutes.

HARD WORK  
—Johnson in the Philadelphia North American.

## W. R. NICHOLS KILLED

Employee on Government Booms at Goose Island in Fatal Accident

An accident in connection with the falling over of the guides of a pile-driver on the construction work on the government booms at Goose Island, one hundred miles up the Saskatchewan on Tuesday, proved fatal to William R. Nichols.

Nichols and another workman were cutting off the head of a finished pile and had chopped the pile nearly through, when Nichols procured a rope and hitched it to the lifting gear of the pile-driver and started the engine to work thinking it would break off the half-chopped piece, instead of doing which, the braces snapped and the guides toppled over, striking Nichols on the shoulder and dislocating his neck, so that death resulted almost immediately.

Dan McCaig, another workman, brought the body to Edmonton and Dr. Fortin, after viewing the body, decided that an inquest was unnecessary. Two brothers of the deceased reside in the city and his parents are still living in Nova Scotia. The funeral took place this morning at 11 o'clock from Connolly & McKelvey's undertaking parlors.

## MARRIES SWEET SIXTEEN

Now in Jail for Giving Wrong Age to the Minister

Belleville, Ont., July 21.—Ernest Little of this city is under arrest charged with marrying a girl named Ethel Povey, who is only 16. He got a marriage license, alleging the girl was over 18. They were married and the girl's parents had him arrested. She is now in jail.

## THREE BURNED TO DEATH

Men Burned by Bush Fires Near Detroit, Michigan

Albany, July 21.—Three men were burned to death last night in a forest fire, along the St. Lawrence river, four miles east of Detroit. They were Philip Richmond, Salem; J. Brooks, Alfordville, Oregon; and Frank McGee, Chalfield, Pa. The men met death in an effort to save their goods. Another big fire is raging in the same mountains, north of Mount Jefferson.

## Dr. Martel's Female Pills

SEVENTEEN YEARS THE STANDARD

Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

# FROST AND WOOD Mowers and Rakes

Have no equal in Canada to-day. They are built by a firm that has successfully catered to the Canadian farmer for over 70 years and you certainly benefit much when you buy any Frost and Wood implement, because it has all that vast experience built into it. Read about these Mowers and Rakes, then write to our Western Agents for a Catalogue and further particulars. Better still, go and see their nearest dealer.

## FROST and WOOD No. 8 MOWER

SPACE prevents us giving all the good points, so we urge you to write for our Catalogue if you are thinking of buying a reliable Mower. Ours are built in various sizes from 3 ft. 6 in. cut to a 7 ft. cut. You will notice that the small gear wheel is inside the large one on what is called the Internal Gear principle. Both these wheels travel in the same direction. Now, on most Mowers the gears are arranged exactly opposite, the small gear wheel being on the outside. This is a decidedly bad feature, because the wheels work one against the other, causing a great amount of friction, wear, and loss of power, and eventually a loose connection. You can easily prove the superiority of the Internal Gear principle for as soon as you drop the bar and start the team the knives begin cutting. There is no lost motion, no jerks, no bumping up—the action is immediate. Our Mower is liberally supplied with roller bearings—ensuring long life and light draft. It is made of first-class materials and put together by expert workmen. Let us send you the whole story to read at home—free.

This illustrates our popular Tiger Rake, which is built in three sizes, 8 ft., 24 teeth; 9 ft., 28 teeth; 10 ft., 30 teeth. With the exception of guide bar and shafts it is made entirely of steel and is therefore very strong and light. It has an automatic Foot Dump, so that there is absolutely no labor required to operate it, the horse or horses doing all the work. Another exclusive feature is our new automatic locking device for holding the teeth up when the Rake is not in use. We bend the teeth with a special quality of spring steel, temper them thoroughly, so that they are well equipped to stand all strains. The Rakes are equipped with under-cleaners unless otherwise ordered. The 9 ft. and 10 ft. Rakes are equipped with extension Pole and Shafts and supplied with steel wheels only. 8 ft. Rakes can be shipped with wood wheels if required. Write for our Catalogue and go over our whole line of Rakes; we know you have just what you want.

## COLLEGE MEN IN MAJOR LEAGUES

Harvard and Yale Send Few Men but Holy Cross and Bucknell Have Many Recruits

In major league baseball today there are at least 20 per cent. more college men than when old "Cap" Anson and Charlie Combs were in their prime.

College men take to baseball like a duck does to water, although the general supposition is that they incline more to football. The impression is quite wrong, however, as the number of men now playing major league baseball indicates just the opposite.

Christy Mathewson won his earliest fame (winning for Bucknell, Eddie Grant, of the Phillies is from Hartnell, a Catholic college, and Frank Sparks is from a school in Alabama. Fred Tenney, once a demon Giant, went to Brown; "Red" Murray is from Notre Dame; Arthur Devlin studied at Georgetown and Chief Meyers had a course in sciences at Dartmouth.

"Big Ed" Reulbach, of the Cubs, who began his career at Notre Dame, is probably one of the most noted major leaguers of today. Overall, of the former champions, was a star on one of the California college nines, while Frank Chance first acquired fame while playing on one of the California varsity nines. Frank Pieter of the Cubs went to Illinois, and so did Fred Beebe of the Cincinnati Reds. Bob Bescher studied at Wittenberg and Notre Dame.

Brooklyn has several good players who got their start playing college baseball. Tommy McMillen hails from Georgia Tech, McElveen hails from a southern college and "Doc" Scanlon originally prepared at Notre Dame. Notre Dame has prepared scores of players now winning fame in the big and little leagues, and the same applies to Niagara university, Holy Cross and Brown.

"Doc" White, the White Sox pitcher and outfielder, learned the rudiments of the National pastime at Georgetown. Barney Reilly, who is likely to be called back to Chicago, if one of the youngsters falls down, is an ex-Yale man.

Cleveland boasts of three ex-collegians who have hit some home run players. There is Fred Falkenberg, one-time student at Illinois; George Perrine, who hails from Beloit, and Joe Birmingham, who was quite a prominent athlete at Cornell. The Boston Red Sox include a lot of players who originally wrestled with Greek and Latin. Of these the more prominent are Harry Lord, of Bates, Collins, of Vermont; Carrigan, a Holy Cross man; Gardner, of Vermont, and Jake Stahl, once the most popular athlete ever known at Illinois.

Connie Mack, manager of the Athletics, has made a howling success of baseball with his young talent, nearly all of the Mackmen of today having at one time or another studied higher mathematics under college instructors. Harry Davis went to Girard Medical school. Jack Barry copped a degree from Holy Cross, Eddie Collins led the gay life at Columbia, Chief Bender

hails from Cardiff, Jack Coombs went to Colby, Eddie Plank is from Gettysburg, Harry Krause from St. Mary's, Larkin from Holy Cross, and Heilmüller from one of the California institutions. Gessler of Washington is a graduate doctor and a Washington and Jefferson alumnus; Griggs of the St. Louis Browns hails from the University of Pittsburgh; Hartzell made his debut at the Colorado School of Mines, Catcher Stephens is from one of the small colleges of Texas, while Ray Demmitt, former Highlander, is another Illinois man.

Seldom does a Yale or Harvard man jump into the big leagues. Men who can afford the price at Yale, Harvard, Princeton or Cornell as a rule are too well off to need the contract offered by a major league magnate. As a rule, the star from one of these institutions steps right out of the college and into his father's business.

## NERVY DEEDS OF AUTO RACERS

One Stood on the Cranking Rod and Held to the Water Cap While Car Went 60 miles an Hour

One of the nerviest spectacles ever seen on an auto race, says Hampton Magazine, occurred in the Long Island stock car Derby at Riverhead last September. Herbert Bailey, mechanic for Louis Disbrow, and his crew, a team of four men, were in the lead on their fourth lap and was two miles from the repair pits the pin fell out of the reach rod, disabling the steering gear. The machine threatened to become unmanageable.

What did Bailey do but climb over the hood, lower himself on the little cranking rod and sit facing the radiator with his feet propped against the front axle. With one hand he prevented himself from being dashed under the wheels by holding on to the little water cap on the top of the hood.

The other hand held the disabled steering gear together. Bailey rode twenty miles in that manner, with the car going full speed, until the circuit was completed and the repair pits made.

George Robertson had an experience in the famous back stretch of the Merimac Valley course which might have had pretty serious consequences. "We were making 70 miles an hour," said Robertson in telling the story, when suddenly I heard a crack. The next second I felt through to the floor of the car.

His Feet in Air  
The seat had broken under me. There I lay with my hands on the wheel and my feet sticking up in the air.

"I could not see the road in front of me, and did not know where the car was going. Just before Glen Ethridge, my mechanic, grabbed me by the shoulders and pulled me up, the car tilted perceptibly. It almost tipped over. I tell you, I thought we were goners! No, I haven't said anything about it. Why should I?"

Smiling George then call him, and his sunny countenance certainly bears out the nickname. Robertson is a big, solid-looking youth who gives the impression that nothing could move him.

He fairly radiates vitality. In everyday life he is an easy-going, merrily, careless chap.

Sometimes Like Maniac  
In a race he is another man. At times he acts like a maniac. He has been known to strike the men in the repair pits when they did not work fast enough to suit him. On the road he is absolutely fearless. The other drivers "turn out" for him. On more than one occasion Robertson has scraped the paint off a car that was slow in giving him leeway.

A story is told of Robertson's behaviour during the dirt-track race. It was said that he had hurled a monkey wrench at another driver who had deliberately tried to block him. When Robertson was asked about this he appeared highly amused.

"Honestly, do you think I'd throw my wrench at anyone? Why, it's absurd. Suppose I should need that wrench during the race! If I threw anything, I throw spare nuts."

## YORKTON GREET'S PRIME MINISTER

Greatest Welcome He Has Yet Received Was in Saskatchewan Town

Yorkton, Sask., July 20.—Saskatchewan is competitive hard with Manitoba to give a finer and more impressive welcome to Sir Wilfrid Laurier who arrived here this evening. So far no place has had a grander display of outside celebrations than Yorkton which has entered into the spirit of a welcome to the Premier with remarkable thoroughness. A tremendous arch made of oats bearing the words "Welcome to our Premier," was the first object which met Sir Wilfrid's eye when he arrived at the crowded railway station. He admits that he has seen nothing finer during his western tour. There is not a business house, and scarcely a dwelling house that is not displaying patriotic emblems of some description. Even the foreigners, who have been impressed with Sir Wilfrid's welcome to them to become true Canadians and help to make a greater Canada, are crowding into the town from the outlying districts to welcome Canada's grand old man.

Sir Wilfrid Laurier visited the wheat fields of Yorkton this morning. He had to confess he had not seen anything better during his tour through the West. The incidents of his trip are impressing themselves upon the Premier's mind. To a mixed crowd this afternoon of English, Galicians, Greeks and Jews, he declared: "I came from the eastern provinces, where the British element is strongest, and supreme, but here you have a more cosmopolitan people and I am glad to see the British are willing to share whatever they have with their fellows. We recognise that we are all Canadians, and that we may join together to build up our nation. I can assure you that when I go back to Quebec my bosom and my heart will be larger than it was when I left it."

A civic address presented to Sir Wilfrid to-day proclaimed: "No man has ever worked harder to unite the hearts of the various representatives of nations who live here. Not only have you united the hearts of all Canadians, but you have strengthened the ties which bind us to the Mother Country."

In his reply Sir Wilfrid referred to the blending of races in Canada. "In uniting the different races to which your address refers," he said, "I have realized the ambition of my life. I cannot say that I have succeeded yet in my task, but I can say it has been the aim and object of my ambition ever since I entered public life."

ARTHUR BARLOW CLAIMS DAMAGES FROM THE CITY

Was Jolted in Street Car—Other Business at Commissioners Meeting

There seems to be an epidemic of lawsuits hovering about the City Hall. Yesterday's afternoon session of the city commissioners a demand for damages was made by Mr. Arthur Barlow, who stated that he received injuries on a Twenty-first Street car. He claims that at the time the brakes failed to work, and the sudden reversing of the car threw him forward, he being crushed and sustaining otherwise serious injuries. City Solicitor Bown will make a report on the case.

The commissioners decided to ask the waterworks superintendent for an explanation of the amount of water which is being consumed in the city throughout the night. Whether the consumption of water is as heavy as it is said to be or whether there is a leakage will be answered by the report of the superintendent.

## Inspect Hydrants.

The hydrants which are being used by the Bitulithic Company will now be subjected to inspection twice a day, on account of a report of the fire chief to the effect that the hydrant at the corner of Second Street and Jasper Avenue is out of order. The hydrant is being used by the company, and no reason is advanced why a breakdown should occur.

The request from the provincial government for a loan of 1800 feet of 6 inch pipe was granted as there was more than a sufficient quantity on hand for the city's needs.

## Look Into Fair Buildings.

Engineer Latourel will look into the application of the exhibition association for authority to construct an additional horse stable on the exhibition grounds with a view of seeing whether any other extras will be necessary.

It was decided to instruct the telephone department to extend the service to Dr. Mulvey's house in Norwood.

Ash Bros., Diamond Hall, Edmonton's largest jewelry house.

## CENTRALIZATION OF CREAMERIES RECOMMENDED

The centralization of creameries in Saskatchewan was strongly recommended by Hon. W. R. Motherwell, Minister of Agriculture, at a dairy convention held in Saskatoon. Under the present system the government pays shipping expenses on cream shipped from any point in Saskatchewan to the nearest creamery in the province. The shipment of cream to large central creameries is more profitable to the farmer than were they to establish numerous smaller local creameries.

The advantages of centralization of creameries were shown by a reference to the creamery business in Manitoba. Of the thirty creameries in Manitoba last year about one-half of the butter made was turned out at the creameries at Winnipeg and Brandon. In the province of Alberta there are twenty-five creameries. Mr. Motherwell pointed out, four of these manufacture nearly half of the entire creamery output. Centralization greatly reduces the cost of manufacture.

The idea of centralization was recommended by Mr. Motherwell, was endorsed by Mr. W. C. Paynter, president of the Tantalum creamery. He approved of some system of government supervision in the placing of creameries and recommended that before the government should undertake to grant financial assistance to any proposed creamery the company should be required to show that a good share of its stock has already been paid up.

## OIL ON TROUBLED WATERS

Lord Rosebery: "I fancy this should smooth things down a bit and save the ship."

—Daily News (London).

The idea of centralization was recommended by Mr. Motherwell, was endorsed by Mr. W. C. Paynter, president of the Tantalum creamery. He approved of some system of government supervision in the placing of creameries and recommended that before the government should undertake to grant financial assistance to any proposed creamery the company should be required to show that a good share of its stock has already been paid up.

## Cities do not grow up in a single night BUT --

You watch property on the Strathcona side of the river from now on.

You have probably had quotations on property there a few months ago.

What are they asking for it today?

Phone up the agent of the particular property you were interested in.

The subdivision I wish to interest you in is

## Hillcrest

It is situated on a beautifully graduated slope overlooking the North Saskatchewan, presenting a magnificent view. This is a property which in a few years' time will command handsome Prices.

## The High Level Bridge is going to revolutionize prices in Strathcona

just as soon as the bridge is completed and a five cent car fare is established. Watch Strathcona grow

The time to buy is today. Price of lots from \$25 to \$65; ten dollars cash and balance to suit purchaser. No interest.

It will not cost you a single cent to come out and view this property. It is a pleasure to show it.

Phone 2806

740 First Street

## THE FORMULA OF "FRUIT-A-TIVES"

Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-A-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-A-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true. Fruit juice consists of about 91% water, 8% of sweet principle, and 1% of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-A-tives."

"Fruit-A-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-A-tives" is the nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-A-tives" is sold everywhere at 50c. a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-A-tives Limited, Ottawa.

BUDD BURT OF MINNESOTA

Burt will meet Kid Johnson of Fargo, N. D., in the Sirtheona Opera House, Friday night, in a 15-round contest. Good preliminaries will be provided. Burt is a lightweight boxer of class and during a long career in the ring has met and defeated Billy Trenholme, once champion of the Northwest; Barney Cinnamon, the hero of 114 fights, and Billy Lander, well-known to ring fans in Alberta.

### SACRIFICE HITS

Hickey will now take Slim Dell's place in the affections of the feminine fans.

Spencer and Holmes who starred in a little playlet entitled, "The untied shoelace, or Heinie and the birdies" paid \$5 each to Umpire Wheeler for the copyright privileges.

It isn't often that Heinie goes up in the air, but he certainly gave an impression of Count De Lesseps last evening.

Cecil Thompson again carried off the batting honors with three hits but one of Hickey's (two hits was the real heroine of the battle).

Calgary will sure lose one of two games when Bill Morrow visits them. Hope the Angels take a clean sweep.

Deacon and Chesty have certainly "come back." Backers of Jeffries, please note.

Winnipeg is here today and it is up to the Eskimos to take three straight.

Stub scored one goal.

Why does Holmes always insist on Dell replacing a disabled base-runner? Perhaps he doesn't know that Slim stole a base last week.

Has anyone here seen Ducky? The hero of the one-handed catch.

Grady and Baxter are both suffering from bad fingers.

Edmonton is all by its lonely in second place now as Lethbridge only succeeded in tying Regina last night.

Chesty made a number of nice catches in right and hit Heinrich with great confidence.

The game had one remarkable feature. Not a stolen base or a sacrifice hit was made by either team.

Stub Spencer worked like a beaver and cut off many a well-intentioned run to first.

The Winnipeg Post, at the end of a one column roast of the Maroons, remarks: "What is needed is a whole new team, excepting Krueger, Beatty, Anderson and Collins—the rest are just about good enough for Napinka or Treherne."

Bill Morrow was absent. He was representing Brandon at the league meeting in Calgary.

Hickey bids fair to supplant Heinrich as the leading southpaw of the game last night.

### SASKATOON IS READY

Saskatoon, July 21.—Upon receipt of a message from Calgary yesterday from the Western Canada League meeting at Calgary stipulating upon what terms the Medicine Hat franchise would be handed over to Saskatoon, a meeting of local supporters was held and acceptance of the terms at once wired to Calgary. Local sports

have already formed a joint stock company to handle the proposition and it is expected that at a meeting tonight in Calgary it will be decided to hand over the Medicine Hat team to Saskatoon tomorrow and, if possible, the newly acquired pros. will be brought here to open play on Monday next. It looks as though Saskatoon would support a professional ball team quite nicely. In ten minutes this afternoon nearly a thousand dollars was subscribed in stock.

Nan (at lake resort)—Yes, Jack has been teaching me how to swim. It's great fun.

Fan—The rascal! He's been pretending to me that he can't swim a stroke, and I put in nearly all of yesterday afternoon teaching him!

# The "Don't Need to" Theory

In a recent debate at Reno Mr. James Jeffries failed to convince Mr. Johnson.

Some seven or eight years ago Mr. Jeffries was the leading man in his line of work. Business was good and his profits were big.

Having all the money he could handle at the time, he concluded to take a rest.

To be sure he planned to get into the field again at the proper time.

But everything was rosy and there really seemed no good and sufficient reason why he should spend so many hours a day keeping his muscles lithe and strong and his wind good and his heart and nerves in trim.

Eventually the meeting with Johnson was arranged. Mr. Jeffries was still tolerably content with what he had done.

(Brother, a has-done is about as bad as a has-been.)

Mr. Jeffries did not care to stand up in the training ring and punch and take punches. He did not see any necessity of practicing side-steps and feints and rushes.

He knew all about them. Why, seven years ago he had done all of that he ever needed to.

Mr. Johnson did not overlook the boxing and the wrestling and the clinching and the sidestepping, etc.

As a result, Mr. Jeffries received Mr. Johnson's compliments on the point of the jaw, and his business career closed.

Advertising a business is the training of that business.

Advertising keeps a business healthy.

It tones up its liver, strengthens its biceps, steadies its heart and keeps its nerves in order.

Once in a while a man decides that he is doing so much business that he can stop advertising for a while and run on momentum.

Momentum is the gradual process towards a full stop.

The momentum business is usually prematurely full-stopped by the straight left jab of the well-trained competitor who finds his opening in the fifteenth round.

If you want to stay in business stay in the advertising field.

No matter how much business you are doing, keep up the energy that makes it.

You might as well cut off your legs because you are running well in a foot race as to cut off your advertising because your business is too good.

You might as well tell the insurance man that you are so healthy you will drop the policy for a few years as to stop advertising because the orders are piling up.

"Don't need to" is the eventual preliminary to "Can't do it."

The only man who doesn't need to advertise is the man who has retired from business.

The only policy holder who doesn't need to pay his premiums is dead.

Mr. Jeffries doesn't need to train any more. He is licked.

**See Your Ad. on this Page Every Day**

## One Want Ad.

Of Every Twenty is the Key to an Interesting Romance

The want ads. touch life so intimately—give reflection at such close range—that very often a few lines of classified advertising form the key to a real life romance as pathetic or as inspiring or as dramatic as could be "found in books."

Sometimes the want ad. is a link in the chain of the story—a "real estate for sale" ad. often is. Another want ad.—perhaps offering something for sale which would indicate the dissolution of a home—may be the key to a pathos story more interesting if it could be told, than any fiction. Some other "for sale" ad. may suggest a drop of life as appealing as the adventures of Mr. Pickwick.

To those who have insight, who "know" human affairs in this city in this year of grace, 1910, the want ads. are the BEST current reading matter. And, often, a want ad. reader who starts in to find romance clues is surprised to find clues to an amazing number of "other things"—puzzle-making clues, for instance.

## About Town

Mr. and Mrs. W. P. Parsons left by the C.P.R. for Portland, Oregon, last night.

Mr. Fred Adams, travelling freight agent for the G.T.P. Railway, arrived in town last night.

S. J. Jameson left for Montreal and E. H. Brown for Toronto, by the C.N.R. last night.

Mr. and Mrs. Lloyd-George Young and family leave Friday for their summer home at Whabamin.

Hon. C. R. Mitchell, accompanied by Mrs. Mitchell, have left for the coast, where they will spend a month.

Mrs. S. E. Hammond left for Liverpool by the C.N.R. last evening. She will sail on the Corsican from Montreal on July 29th.

The Department of Public Works has issued a call for tenders on the reinforcing fabric in connection with the parliament buildings.

Mr. E. J. Chamberlain, general manager of the G.T.P., accompanied by Mr. H. H. Brewer, traffic manager, arrived in Edmonton from the east on the R.I.S. express last evening. Mr. Chamberlain started for Wolf Creek early this morning to inspect the progress of the work out West.

## HELP FRESH AIR CAMP

The Mayor issued an appeal this morning to the citizens of the city for assistance, financial and otherwise, for the fresh air camp which is being held on the Gibbons property under the auspices of the United Aids.

"They are doing a really good work, and are supplying a vacation for children who would otherwise not get one. They are certainly deserving of public support."

## NEW UNDERTAKING PARLORS

New undertaking parlors have just been opened at the corner of Eighth street and Jasper avenue, by Mr. L. W. Cross, who comes from Warton, Bruce county, Ontario. Mr. Cross has had a wide experience in the profession in which he is engaged and will undoubtedly be favored with a liberal patronage.

His parlors are newly furnished throughout and his stock and equipment are strictly up to date in every detail.

Jack! How is it that Mrs. Brown can get a quiet horse and drive her lady friends and you cannot get one for her? Well, my dear, Brown deals at Horner's Livery and you phone 1224 and 6141 one. C. H. Jack.

## TODAY'S WHEAT MARKET

Winnipeg, July 21.—Today's prices are as follows:

Wheat—No. 1 northern, 117½¢, No. 2, 114½¢, No. 3, 106½¢.

Oats: July 43½¢; October 35¢; December, 44¢.  
Flax—July 220¢; October 220¢.

## SPECIAL SERVICE TO EX.

Manager Harrison of the Exhibition Association, has made arrangements with the Grand Trunk Pacific Railway Company for a special train service between the city and the exhibition grounds during the exhibition week.

The service will start every morning at 9:45 a.m. in time for the opening of the Exhibition at 10 a.m. and will continue until 10:30 p.m., half an hour after the closing of the grounds. Trains will leave the depot every fifteen minutes during the day and the price of a return ticket will be fifteen cents.

The service is being arranged to handle the crowds, and should it be found that it is unnecessary to have a fifteen minute service during the early morning it will be altered to a thirty minute one.

## G.T.P. BRIDGE NEAR CAMROSE FINISHED

Money Bylaws Passed by Camrose Yesterday to Amount of \$30,000

Camrose, July 21.—The three money bylaws submitted to the tax payers yesterday were carried with two votes against and with seventy for them. These bylaws authorized the issues of debentures for \$30,000 for an electric light plant, \$2,500 for improvements to the agricultural park, and \$5,000 for further fire protection. Of these only about \$6,000 will be sold at once, as the estimated cost of the system is approximately \$23,000 and the extra \$7,000 authorized will be used for extensions, etc., as needed.

The installation will be begun at once and hurried to completion. Mr. Maxwell, B.S.C., the engineer employed by the town, has charge of the work.

The bridge of the G. T. P. across the Battle river, seven miles south of here is now completed. This bridge is built entirely of timber and is probably the largest of its kind in the west. It is 115 feet above the water and over 300 feet in length. The G. T. P. will run steel rails across the river and south to near Fernintosh, where they have extensive gravel pits, and from which this line to Toledville will be ballasted.

## CRIPPEN CASE WAS AIRED IN COMMONS

Member Wanted to Know Why Police Hadn't Caught the Doctor

London, July 21.—The Belle Elmore murder mystery got into the House of Commons yesterday, but the attempted airing of the police end of the case failed when Home Secretary Winston Churchill declined to answer questions on the subject on the ground that the government held it undesirable to discuss details of the police inquiry at present.

Ever since the body supposed to be that of the actress wife of Dr. Hawley H. Crippen was unearthed in the cellar of their Hilldrop Crescent home, the officers of Scotland Yard have been stung with criticism for having permitted the doctor to escape them after having been for nine days under suspicion. General dissatisfaction with the conduct of the police was expressed in the lower house yesterday by William J. Thorne, a labor member, who put a series of questions to the home secretary, designed to develop why the authorities had lost track of the man against whom a suspicion of crime had been directed. Mr. Churchill's declination to be drawn into the matter was briefly but positively stated.

## The YALE HOTEL

EDMONTON  
Robt. McDonald, Prop.

## DROUGHT CAUSING DISTRESS IN SOUTH

Crops Are All Gone and So the Farmers Must Get Work

## ARE LEAVING THE FARMS

Coming into the Towns in Order to Get Jobs for the Winter

Calgary, July 21.—"The settlers and homesteaders are all coming out to get work for the winter. They have no grass and no hay and it is useless for them to stay. They are all leaving the farms and are applying for extensions this year," said Col. James Walker this morning on his return from a trip to his coal mines, 75 miles east of Bassano.

In coming in from the mine, which already shows a ten-foot seam of good quality coal, Col. Walker made a fast drive. The mine is 75 miles from Bassano, and starting from the tunnel at 8:30 on Monday morning the colonel reached a stopping place seventeen miles from Bassano at 10 o'clock the same night. An early morning start today got him to Bassano by 7 this morning, and before noon he was in Calgary.

"Our coal mine is good, but the way things are going, there will be no people in there to buy coal," said the colonel. "The country I was through is the same country which was burned over last fall when the city sent a representative out to see if any assistance could be rendered. Since the fire there has been little or no rain and consequently there is no grass. Many of the settlers were figuring on running their stock on the land across the Bull Pound Creek where there was a fairly good pasture, but on Sunday a fire started there and destroyed their last hope, so that there is nothing left for them to do but come out. A high wind was blowing and the fire burned very quickly and there was no chance of extinguishing it."

Colonel Walker also stated that he travelled for 40 or 50 miles without seeing any crops at all. "Scam plows fire lying idle," he said, "through the dryness of the soil. Many of the people are only on their first year, and they have not been able to do a thing, owing to the prevailing conditions. I saw here and Bassano, however, I saw some dairy goos, both of fall wheat and oats. This will thresh out at about half a crop, but there are a number of farmers who are re-planting, as their first crop has failed to materialize."

The colonel also stated that at Bassano yesterday, the thermometer registered 105 in the shade. "It was the hottest day I was ever out in," he said, "and as we drove and walked a good deal, it was anything but pleasant."

## C.N.R. WILL BUILD OKANAGAN LINE

Will Construct Branch From Main Line to B. C.'s Fruit Country

Vancouver, B. C., July 21.—The construction by the Canadian Northern of a branch into the Okanagan Valley from a point on the main line of the company, at or in the vicinity of Kamloops, is indicated by reports received from Kamloops today. It is declared that work in building this line will, in all probability, be begun next year, and that it is one of the railway lines which Premier McBride had in mind when, at last session of the provincial legislature, he prophesied for British Columbia a great railway development on the heels of the construction of the main line of the C. N. R.

It is stated that an arrangement has been suggested between the City of Kamloops and the Canadian Northern by which the construction of the branch will be commenced next year and pushed to completion.

A reconnaissance survey route for the branch is reported to have been made by railway surveyors last year. Generally the route will, it is said, follow the old stage route between Kamloops and Okanagan, traversing the Grand Prairie district, Campbell Creek and the Upper Salmon river valley. The construction of a railway through this territory would open up an immense tract of very valuable agricultural land.

WANTED—INVOICE CLERK. Apply by letter only. Answer Co. Ltd.

## HAY TO \$20 A TON.

Calgary Man Predicts High Prices This Fall.

Calgary, July 21.—"That hay will be extremely dear this season, averaging somewhere round \$20 per ton, is the belief of Commissioner Graves, who returned from a short trip to north today. Mr. Graves says this on good authority, one of the experts he spoke of being Mr. Stauffer, M.P. for Didsbury."

"I could not help but be struck by the freshness of the northern country," declared Mr. Graves to the Albertan.

"It made me feel like a boy again to get among the greenness and the perfume of the flowers. There was no doubt that the country for sixty miles north was at a terrible disadvantage as regards spring wheat, compare with the promise of the more northern crops, but I noticed that the fall wheat was keeping so well."

"The dry season is sure to direct emigration temporarily from this part of the country, but it can't injure us for any length of time. The fall crops will be good, I think."

## U.F.A. PICNIC BIG SUCCESS

(Continued from page one.)

are a lot of persons who would like to have one of these picnics personally asked.

**Elevator Question**  
On the subject of internal elevators Mr. Bowers said that he was one of a committee of three to place the proposition before the government and so he would not care to express his own personal views at present.

British Columbia is the proper market for Alberta grain and the only way to have an elevator on the Pacific coast where the grain will be cleaned and sacked. Internal elevators will enable the farmer to have his grain weighed and procure a certificate of weight without having the U. C. lawyer will not say.

**Will See Sir Wilfrid**  
With regard to Dominion affairs Mr. Bowers said that there were certain great western questions which the farmers are going to bring before Sir Wilfrid Laurier when he visits Alberta. The beef-killing system is one of them.

"We don't know how it is going to be operated. We want to know our position and not to be tripped up by private interests," said the speaker. "What we want is the producers to be absolutely protected. We don't want any privileged interests subsidized, it must be either private totally or public totally."

**Get Trade With Orient**  
"Terminal elevators were wanted at the coast, he said, where a big trade could be done with Mexico and the Orient. Many, he said, would not see the need of the Co-operation Bill, but the farmers must not submit to be dictated by the retail grocers' association, so that the Bill was killed. We need the bill badly. More than 100,000 men must enter the business without becoming a joint stock company and if we do this we lose our co-operation."

**Hon. Duncan Marshall**  
The Hon. Duncan Marshall was then introduced and said a few words on the subject of the district's crops which he said he had looked at on the way down and thought were in very good shape considering the bad season.

The government is doing all it can to fill up the country with good men of the farmer class, he said, which is what is wanted as the demand will increase with the production. What the government was trying to do was to bring about such a state of affairs that the farmers would have a good market and a reasonable freight rate. The freight rates at present, he said, are exorbitant, and the government is at present assisting the secretary of the U.F.A. to prepare a case which will shortly be presented to the Railway Commission. The trend of politics is now towards greater trade with the United States. And Mr. Marshall said that he would do his best to promote better trade relations with a country which will soon begin to run short of bread stuffs.

**View Point of Tariff**  
The question of tariff, he said, must be discussed from the consumers' point of view with the greatest possible freedom of trade and every one to get a fair show. Protection is still lingering in the country and selfishness is the cause. Individuals want to sell where they can get a higher price and do not look to the good of the country. It is now the duty of the farmers to make representations to the government to reduce the tariff.

After the speech making was over every one availed themselves of the supper after which the many races and sports on the programme were carried out until about 8 o'clock. Everyone, very tired, but having spent a very enjoyable day, made a homeward move and the day came to an end.

## CALGARY LEADS IN SHOOT

(Continued from Page 1.)

lain, 103rd Regt., 64; Lieut. P. Bowen, Strathcona, 64; Corp. Regan, 101st Regt., 61; Sgt. H. Balfour, 101st Regt., 61; W. J. Simmonds, Medicine Hat, 63; J. Earl, 60; Rawdonville, 62; W. T. **TENDERS FOR REINFORCING FABRIC FOR PARLIAMENT BUILDINGS, EDMONTON**

SEALED TENDERS, addressed to John Stocks, Deputy Minister of Public Works, Edmonton, registered and endorsed "Tenders for Reinforcing Fabric," will be received up to 12 o'clock, noon, August 4th, for the supply and delivery of F.O.B. Government Siding Edmonton, of approximately two hundred thousand (200,000) square feet Wire Fabric for concrete floors.

Specifications and forms of Tender may be had on application at the Engineer's Office, Department of Public Works, Edmonton.

A marked cheque payable at par to Edmonton, to the Minister of Public Works, Edmonton, for the sum of two hundred (\$200,000) dollars must accompany the tender.

The cheque of the successful bidder will be retained until the material contracted for is delivered and accepted.

The cheques of the unsuccessful bidders will be returned within three days after the contract is executed.

The right is reserved to reject any or all bids or waive any defects.

**JOHN STOCKS,**  
Deputy Minister.  
Dated at Edmonton, this 20th day of July, 1910.
